Summary

A professional frontend and .NET developer with over 3 years of experience in app and web development.
Skilled at developing applications and websites using different languages and technologies.
Proficient in React Native, ASP.NET Core, ReactJS, SQL, and Firebase.

EDUCATION

Al Hussein Technical University | Amman, Jordan   Oct 2026
Bachelor of Computer Science
Clubs: Event Manager at ACM. IEEEXtreme Ambassador at IEEE
Relevant Coursework: Data Structures & Algorithms · Operating Systems · System Analysis & Design

WORK EXPERIENCE

Integrated Technology Group (ITG) | Amman, Jordan   02/2025 – 10/2025
Product Development Trainee
- Developed web applications using ASP.NET Web Forms, MVC, .NET Core, Web Services, and Web APIs.
- Worked with ADO.NET and Entity Framework for data access and management.
- Utilized front-end technologies like HTML5, CSS3, Bootstrap, jQuery, and JavaScript to enhance UI/UX.
- Designed, coded, and implemented web applications using the ASP.NET framework.
- Conducted thorough testing and debugging to identify and resolve bugs and performance issues.

IndoArabi (Freelance) | Amman, Jordan   10/2024 - 12/2024
App Developer

- Developed **IndoArabi**, an Arabic learning app for Indonesians using React Native (Expo, TypeScript) and Supabase (SQL/NodeJS).
- Made for a client (Arabic Professor) that wanted to publish the app for Indonesian students.

Jam3et Games | Amman, Jordan   06/2023 - 01/2024
Game Developer

- Developed an idle card game for mobile platforms in Unity (C#).
- Planned, managed, and developed the project collaboratively with a team over an 8-month period.

Mudawaneh (Freelance) | Amman, Jordan   08/2022 - 12/2022
Web Developer

- Created **Mudawaneh**, a book library and browsing website using JavaScript and Firebase.
- Made for a client (Book Author) that wanted to share his books to his readers.

PROJECTS

Tawtheeq | Amman, Jordan   08/2024 – 12/2024
Crown Prince Award

- A startup project focused on managing legal debts, connected with the Ministry of Justice.
- Designed and developed using React Native (JavaScript), Expo, and Supabase.

BoomBx | Amman, Jordan
- Developed a cross-platform soundboard and audio router in .NET 8 using AvaloniaUI (MVVM), enabling playback through a virtual microphone.
- Implemented VB-Cable integration, low-latency WASAPI playback, audio format conversion, and dynamic device management.

LEADERSHIP ACTIVITIES

IEEE Student Club, *IEEEXtreme Ambassador & Event Organizer*   05/2024 - 12/2024

- Guided students, coordinated teams, and promoted IEEEXtreme competitions across universities.

ACM Student Club, *Event Manager & Technical Trainer*   01/2024 - 12/2024

- Managed events, provided technical training, and mentored students in problem-solving.

IEEEXtreme**, *Organizer***   Q4 2024
- Global 24 hour problem-solving competition, hosted by IEEE in almost every country in the world. I organized the competition in Jordan along with the IEEE Student Club.
